Another feature in InDesign is the possibility to create rows and columns uniformly in the document according to your needs. Go to "Layout > Create Guides". Here you are asked to input the Quantity of rows and columns desired and their gutter (space between rows / columns).

Quick Tip: Working with Rulers and Guides in Adobe InDesign

In InDesign Creative Suite 5, grids and guides help you align elements on the page. Grids and guidelines can be shown (displayed) or hidden as needed. Grids and guides are similar, except that grids are designed to repeat across the page and be a specified distance apart. Neither guides nor grids print when you print your document.

Show and Hide InDesign CS5 Grids and Guides - dummies

Ruler guides are different from grids in that they can be positioned freely on a page or on a pasteboard. InDesign users can create two kinds of ruler guides: pageguides, which appear only on the page on which they create them, or spreadguides, which span all pages and the pasteboard of a multiple-page spread. You can view ruler guides if they exist in the InDesign document or assignment file, but you cannot create them in InCopy.
